

# You bring the audience. *We share the revenue.*

Your audience already comes to you for where to go next. Share WhereTo Trips with them the way you share everything else, and you earn **30% of what we make on every trip they book**. For three years after they sign up with your link.

**30%**

Of our revenue is shared on every completed booking

**3 yrs**

Recurring revenue, per traveler on every trip they complete.

**4 posts**

We only ask that you make a **minimum of 4 posts per year**. The more you promote the more you earn.

## THE VIBE ENGINE

### Where will your vibes *take you?*

WhereTo is the only travel app on the map that is truly interested in the traveler and what they want to experience. A traveler gives us a budget, dates and the vibes they are after, and the Vibe Engine returns destinations that fit. Flights and Hotel package that is under or at their budget.

12,000+ vibes mapped

900+ destinations

4 unique workflows

\$3,400

A week in March

Food & live music

Beach & boardwalk

Coastal & sea fishing

Escape to an island

Family Friendly

Cabo San Lucas, MX | 92

Newquay, UK | 87

Valparaso, FL | 93

Start with you.  
End up somewhere  
amazing.

WhereTo Trips is a **Texas based** travel technology platform. We help people figure out where to go, plan the trip, and book it in one place. We are **launching in Texas first**, with a small roster of creators whose audiences already come to them for travel advice.

## FOUR WAYS YOUR AUDIENCE FINDS A TRIP

Flights + hotels bookable at launch. Cars, insurance, excursions planned.

### Discover

No destination in mind. A budget, a week off and a vibe is enough to discover the world.

### Explore

Pick a region, choose your vibes, and explore your best matches within that region.

### Wander Together

Group travel made simple. Bring your vibes together, then vote where to go.

### Direct

Already know where you're going? Let us help you manage your budget for flights and hotels.

## WHAT'S IN IT FOR YOU?

# New ongoing revenue from *the audience you already have.*

## 1 30% of what we earn

A supplier pays us a commission on the trip. 30% of that commission is yours, on every completed booking. No rates to negotiate and no invoices to send.

## 3 Your voice, your content

People follow you for the way you travel and the way you tell it. Keep doing exactly that, and talk about WhereTo in your own words. We never write your script or edit your opinion.

## 5 Results for all posted content

WhereTo will track the performance of each post, blog, newsletter, and campaign with a unique link and promo code, giving you a clear view of what's driving results and what's not.

## 2 Three years, per traveler

The clock starts the day they download the app and register, not the day they book. All bookings they make for 3 years you share in the revenue.

## 4 A live partner dashboard

Sign in at WhereToTrips.com to see downloads, registrations, bookings and estimated revenue share.

## 6 Paid monthly by ACH

Paid once travel is completed, with a \$50 minimum that rolls forward. W-9 and ACH authorization are collected at onboarding.

## WHERE THE MONEY SITS

The stay is where the revenue is.

15-30%

revenue on hotels

0-1%

revenue on flights

Rental Cars  
Excursions  
Travel Insurance

} coming soon

A booking heavy on accommodation pays you considerably more than one that is mostly airfare. **New components are pure upside:** your 30% covers what we earn, not a fixed product list.

## WHAT IS IN IT FOR YOUR FOLLOWERS?

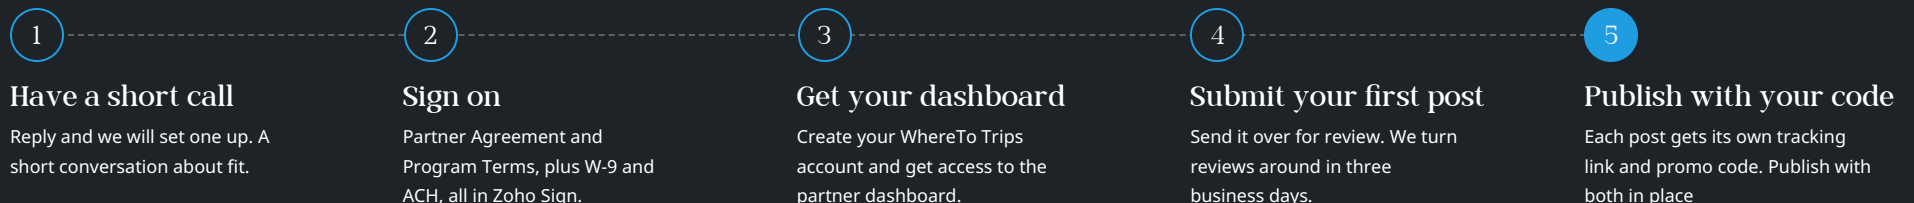

*What if your next trip found you?*

Somewhere they would never have searched for, inside the budget they actually had. A week they will still talk about years later, and they will remember who sent them there.

## HOW TO GET STARTED

# Up and running *in five steps.*

Our review check two things: Accuracy about the app and correct use of our name and logo. Everything else is yours, including your FTC disclosure.

### No code, no credit

Posted content published without its code cannot be credited afterward. There is no cookie window and no retroactive attribution. Partners publish at least four approved posts a year, prorated in year one.
